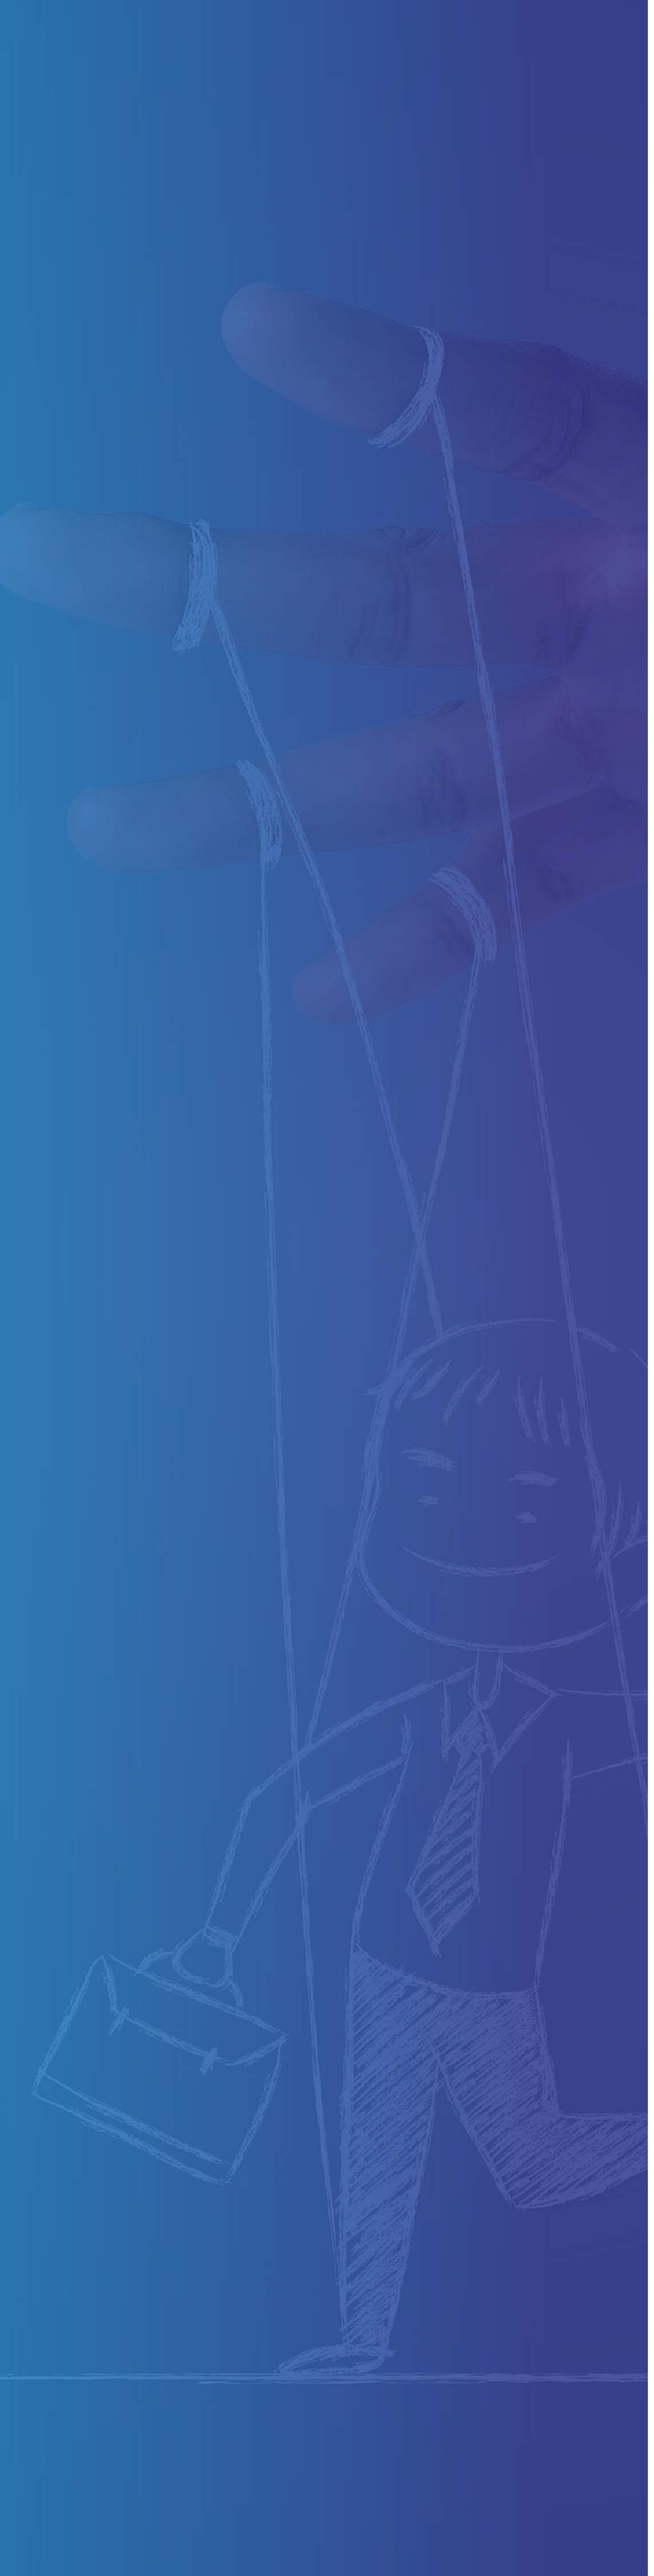
Center of Excellence in Management Studies



# BOSTON INTERNATIONAL COLLEGE

Boston International College (BIC), an academic institution affiliated to Pokhara University, offers different programs at graduate and undergraduate levels. The college was established in 2009 and has been offering Bachelor of Business Administration (BBA) and Bachelor of Business Administration- Banking and Insurance (BBA-BI) since its inception. Moreover, the college has introduced Bachelor of Computer Information System (BCIS) and Master of Business Administration (MBA) since 2017.

Boston International College (BIC) follows research-based participative approaches to develop open minded professionals to meet the demand of the job market and a sound society. The college intends to be a center of excellence in management studies using the time–tested and student centered teaching-learning pedagogy as applied by the most happening business schools. Moreover, the BIC has coped with the modern challenges with the introduction of digital learning platform and dual faculty teaching mode which we believe will facilitate academia-industry interface.

The college provides experienced and internationally recognized faculty members, updated infrastructure, state-of-the-art computerized library and computer lab for all the students. The college also provides spacious classrooms with AC for pleasant ambiance to create a conducive environment for learning and interaction in a dynamic manner. Transformation of society by imparting quality education with academic excellence is the goal of the BIC.

| | |
|---|---|
| **Mission** | To build up an abode of management studies at its best |
| **Vision** | To develop management leaders and entrepreneurs who make a difference in nation |

## Why Boston International College?

- Advanced MIS System with e-Learning Platform
- Dual Faculty Mode Academia-Industry Interface
- Research & Publications
- Regular Corporate & Industrial Trainings
- Communication and Language Lab
- Communication and Language Lab
- International Level Events & Competitions
- BIC Startups
- International Internship & Job Placement

# Message

Ananda Bahadur Chand
Chairperson

Dear students & guardians,

Education is the most powerful tool of the civilized society, and we promise to make every young mind of our community understand and feel it. With these words I would like to welcome you to Boston International College.

Dear students, you are the nation-builders. You are the movers of technology. You are the agents of change. It is our fervent hope that the years you spend in BIC will enable you to equip with leadership and managerial skills. The knowledge you gain, the qualities you discover and the technical skills you harness will prove to be the major contributions you directly pay to your parents, society, and the nation.

Besides applying practical approach to learning, we often invite renowned professors, subject experts, and business leaders & practitioners to inspire & guide you to construct the best professional career. In addition, our well equipped, fully air-conditioned classes, labs, and state-of-the-art library provide you an excellent ambience for learning.

Have a visit to Boston International College and “feel the difference.”

On behalf of BIC, I would like to thank you for having a trust in us, and commit you to give our best to make your dreams come true.

Prof. Kundan Dutta Koirala, PhD
Academic Advisor

Dear students & guardians,

Boston International College (BIC) has been making a mark in the education map of Chitwan with its outstanding performance within the Pokhara University (PU) family. The University has entrusted the college to run their regular graduate and undergraduate programs in Chitwan.

I am overly happy to contribute my knowledge and experience for the proper shaping the academic activities in BIC. Based on my interaction with the college management, I have gained much confidence that BIC tomorrow will be the most sought-after institution of learning in Nepal.

I wish all the best for the BIC family.

| - | Elective II | 3 |

# Career Pathway Model (Non-Credit)

## First Year (Duration: 75 Hours)

**Semester I**
- HTML/CSS/Bootstrap/Git
- UI/UX Design

**Semester II**
- Project-based Front-end design
- Fundamentals of Cloud Computing

## Second Year (Duration: 35 Hours)

**Semester III**
- Programming for problem-solving in Python
- Application-based programming in Python

**Semester IV**
- Introduction to Soft Computing
- Introduction to Linux/Unix

## Third Year (Duration: 90 Hours)

**Semester V**
- Artificial Intelligence/ Machine Learning

**Semester VI**
- Cyber Security
- Mobile Application Development using Flutter Project Based

## Fourth Year (Duration: 50 Hours)

**Semester VII**
- CCNA + Certification or AWS Cloud Practitioner
- Certification Course

**Semester VIII**
- WS Certification Course for Solution Architect

**Kausal Mishra**
BCIS IV Semester

I am very grateful to Boston for providing the infrastructure and resources to learn both management and IT skills with a great group of knowledgeable dynamic teachers. The event that I took part in helping me to grow my confidence level and take a step ahead for being an independent IT professional with managerial skills.
Last but not the least, the BCIS was a great choice and gave me tons to think about. Thank you Boston International College.

# Glimps of Events and Extra-curricular activities

Cyber Security Awareness Program

# SOFT SKILL DEVELOPMENT

Boston International College aims to improve the employability/self-employment outcomes of the students at the undergraduate level. We have initiated to connect industry-based knowledge, skills and competencies necessary for the students to enhance employability outcomes and also build the entrepreneurial mindset to start a venture. Boston International College has agreed with Skill Lab to provide the soft-skills, project-based learning experience and job readiness program to its Bachelor Level students from all the programs. All these sessions and modules have been constructed with experts from aligned organizations and industries in Nepal, and reflect the professional ecosystem's current need. Skill Lab helps in Skilling, Re-Skilling and Up- Skilling of undergraduate students. It also functions as a Business Incubation for the partner academic institutions to help reduce unemployment and achieve job creation in the respective regions.

# BIC Startups(Incubation Center)

BIC Startups is the Business Incubation Center of Boston International College. Business incubation is a process of providing physical, psychological, and network support to the entrepreneurial talents to help them achieve their entrepreneurial aspirations. The role of BIC Startups is, thus, to provide the startup entrepreneurs with the mentoring, guidance, technical support, financial support as well as counselling to implement their startups ideas and turn them into business ventures. It will help the most innovative startups to acquire funds from external investors also.

BIC Startups welcomes the entrepreneurial talents of Bharatpur city including those from the community as well as other academic institutions along with the students of Boston International College (BIC). Therefore, if you are innovative; have a new startup; or simply want to startup a venture, then, please connect with us and we can embark upon this exciting journey together. Don't let your passion pass away; don't let your entrepreneurial ambition die!

**Asmita Subedi**
BCIS IV Semester

Hi! I am Asmita Subedi, a BCIS fourth semester student at Boston International College (BIC). I choose BCIS over BBA and BBA-BI as it prepares me better to meet the demand of the job market. This course is a blend of management and information technology. As a student in the BCIS program, I would highly recommend you to join BIC. The faculty is very supportive and puts a lot of effort into students. Here you will find people that will support you in your every step and also provide a great environment to explore all the possibilities

**Subash Khatiwada**
BCIS VI Semester

The BCIS in Boston International College (BIC) is a program of study that equips you with a Computer Science degree and other necessary managerial and leadership skills. As a student in the BCIS program, I can assure the BIC is a great place to learn. It gave me great opportunities to sharpen my skills and achieve my dream to be a programmer.

I would highly recommend this program to anyone who wishes to expand their skills and live with their dreams.

# Project Based Learning

Boston International College (BIC) truly believes in project-based learning, which enables students to apply their theoretical knowledge and skills learnt into the engaging real-time practical experience. Students enrolled in the BCIS programme are assigned small-scale projects related to the course in each subject by their respective subject teacher. Besides this, the BCIS programme consists of three projects which are to be done in the fourth, sixth and eighth semesters, each of 1, 2 and 4 credit hours respectively. These projects aim to provide students with the experience of developing a medium to large scale project in a small team. All aspects of the development process are considered: problem specification, requirement extraction, system design, implementation, integration, testing and documentation.

- Normally three or four students work in a team.
- Students generally work with the tools like JAVA, .NET, PHP, Python, MySQL, Oracle, and so on.
- Each group is supervised by a supervisor with expertise in the related project.
- The BIC has a separate Department of ICT Research and Project to systematize the overall activities about the project work.
- Students project work will be evaluated by project supervisors, internal examiners and external examiners on the basis of project report,
- project demonstration and presentation.

We motivate our students to study research articles published in international journals with higher impact factors in order to be updated about new trends and innovations being developed in the field of Information and Communication Technology (ICT). Also, we encourage them to develop their projects with emerging technologies such as Artificial Intelligence (AI) and Machine Learning, Internet of Things (IoT), virtual and augmented reality, Robotics and Automation, edge computing, cybersecurity, and so on.

**Recent BCIS student projects**

- Hospital Appointment System
- Khalti book app
- E-Vaccination System
- Inventory Management System(continue)
- Hisab Kitab
- Blood Donation
- Airline reservation system
- Hospital management system
- Rental house management system
- Hotel table reservation system
- Fancy Management System
- Inventory Management System
- Grocery Management System
- To Do List
- Laundry Management System
- Event Management System
- Faculty Feedback System

The BIC organizes an ICT Project Exhibition Day every year where students demonstrate their academic projects with in-house staff, faculties and students as well as invited government authorities, and business experts around the county.

Sandesh Shrestha
BCIS II Semester

Studying BCIS at Boston International College (BIC), I admire a unique learning atmosphere. I have got an opportunity to learn different skills in information technology. The BIC provides multiple projects which has enhanced my skills and ability to work with a variety of computer devices.

The BCIS does not only give knowledge about information technology, but it also helps in the management. The college provides practical-based projects and trainings which support the student to enhance knowledge in an interesting way. By identifying interest and strength of student, the college helps them to grow more regarding their interest by utilizing all the resources efficiently and conducting different programs and seminars.

I am happy to be a part of the BIC.

BBA Program

# Bachelor of Business Administration (BBA)

*"BBA AT BOSTON INTERNATIONAL COLLEGE INSTILLS OUR STUDENTS WITH THE STRENGTHS OF CHARACTER, SELF-CONFIDENCE, BUILDS VALUES OF RIGHTEOUSNESS, TECHNICAL COMPETENCE, AND DEVELOPS THE REQUIRED SKILL TO EMERGE AS BUSINESS LEADERS."*

The BBA program is a four-year, 120 credit-hour program of Pokhara University. The program aims to prepare students as professionals who have knowledge, skill, confidence and motivation to perform competitively in modern organization. BBA program is practical and valuable means of gaining a business qualification that provides an exposure to the challenges of doing business in a global context. The program has wide coverage of conceptual inputs and emphasizes on practical applications that familiarize students with the overall functioning of organizations and their interaction with total environment within which they operate.

## Objectives of the Program

This program is designed to produce professional managers who are equipped with sound conceptual foundation and practical skill in various areas of business.

## Career Prospects

Every organization needs human resources with knowledge, skill and ability irrespective of its nature, size or location. BBA program at BIC prepares students to join at entry level positions in the field of marketing, finance, accounting, human resources and information system in social and business organizations within and outside the country. Organizations in manufacturing or service, private or public, domestic or international, small or large recruit several BBA graduates.

BBA-BI Program

# Bachelor of Business Administration-Banking & Insurance (BBA-BI)

*"THE COURSE PREPARES THE STUDENTS FOR A WIDE RANGE OF CAREERS IN BANKS, INSURANCE SECTOR, FINANCIAL INSTITUTIONS AND OTHER CORPORATE HOUSES."*

Innovations in IT have revolutionized banking and insurance. The entry of global players in this industry has made the market even more competitive. Banking and insurance organizations now require employees who could exhibit skills, knowledge and experience beyond those provided by typical traditional academic institutes. Thus, there is a significant demand for academic courses that specially focus on the concepts and skills specially required for the banking and insurance businesses. To meet this demand and build on the strength of its existing programs, BIC offers Bachelor of Business Administration in Banking and Insurance (BBA- BI) program. BBA-BI is a four-year bachelor's degree with eight semesters. One needs to successfully complete 120 credit hours of course work, a project work and an internship before graduation.

## Objectives of the Program

- To acquire sound knowledge base and conceptual understanding of business & management, banking, finance and insurance with focus on analytical problem-solving skills.

## Career Prospects

Banking and Insurance sectors in the country and abroad are growing in leaps and bounds. The BBA-BI course at BIC prepares students to join at entry level in banking, finance and insurance organizations. Since the students are educated and trained in the conceptual and operational aspects of these sectors, BBA-BI graduates are better placed to work for such organizations and can prove to be more competent professionals. Besides these organizations, the graduates have equal chances to work in the functional areas of private or public, domestic or international organizations.

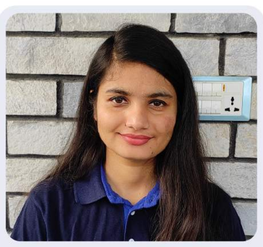
BCIS IV Semester

Boston International College (BIC), affiliated to Pokhara University, is one of the renowned t Management and IT colleges in Chitwan. It offers BBA, BBA-BI, and BCIS programs at undergraduate level. The supportive environment of BIC helps students to be more creative and energetic.
Hi, I am Sonam Neupane and currently pursuing my Bachelor in Bachelor of Computer Information System (BCIS) at Boston International College. The BCIS is the best platform that provides you both theoretical foundation and practical knowledge in Computer Information System and Management as well. The college provides the best and supportive academic atmosphere to students. It provides various clubs, BCCP program, Corporate Social Responsibility (CSR) activities that aim to develop managerial, leadership, communication and entrepreneurship skills among the students. Being a student of BIC has been very good experience. The experience has restructured my areas of interest by providing different opportunities and helped me shape myself into an emerging personality. I feel myself very thankful and grateful to be a part of Boston. And yes I can confidently say that if you are developing your dream then you can rest assured with Boston to ensure for finding a desired destination



**Sabhyata Bashyal**
BCIS VI Semester

Boston International College(BIC) is the best college for students who would like to build their career in management and IT fields. It has highly qualified and experienced faculty. It has a coducive environment, state-of-the-art library facilities and well-equipped computer labs.

I am currently enrolled in 4-year BCIS program which is the blend of management and the IT. I have already completed my third year. I am thankful to faculty, who have supported and guided in every step of curricular and co-curricular activities. The BIC focuses more on practical knowledge rather than theoretical so that we can gain more experience and can face the problems that we may face in the future. Here, many programs are held every year which is really helpful to builds own self confidence.
At last, I recommend you  to choose the BIC which provided me with amazing experience and helped to create my professional life better. Feel proud to be a part of Boston family!!!
